Alergias alimentarias: ¿empiezan a ser una epidemia?

Ana del Prato, Javier Romeo, Javier Linde, Julia Wärnberg, Ascensión Marcos.

Comentarios bibliográficos

Coordinadores: Pedro Pablo García Luna, José Luis Pereira Cunill

- Comparison of the Atkins, Ornish, Weight Watchers, and Zone diets for weight loss and heart disease risk reduction: a Hyperinsulinemic hypoglycemia with nesidioblastosis after gastric-bypass surgery.
- The glycemic index of foods influences postprandial insulin-like growth factor-binding protein responses in lean young subjects.
- Non-surgical management of a lymphatic fistula, after laparoscopic colorectal surgery, with total parenteral nutrition, octreotide, and somatostatin
- Resting metabolic rate is an important predictor of serum adiponectin concentrations: potential implications for obesity-related disorders.

Coordinadora: Marcela González Gross

- Functional foods in the management of obesity and type 2 diabetes.
- Rheological characterization of a novel functional food: tomato juice with soy germ.
- Lack of effect of dietary conjugated linoleic acids naturally incorporated into butter on the lipid profile and body composition of overweight and obese men.
- Diversity, vitality and activities of intestinal lactic acid bacteria and bifidobacteria assessed by molecular approaches.
- Functional foods: a survey of health claims, pros and cons, and current legislation.

Coordinadora: Julia Álvarez Hernández, Emilia Cancer Minchot

- Effect of *Lactobacillus gasseri* PA 16/8, *Bifidobacterium longum* SP 07/3, *B. bifidum* MF 20/5 on common cold episodes: a double blind, randomized, controlled trial.
- The metabolic syndrome - a new worldwide definition.
- An epidemiological evaluation of the prevalence of malnutrition in Spanish patients with locally advanced or metastatic cancer.
- Hypocaloric feeding of obese patients in the intensive care unit.

Coordinadora: Tatiana Garrigós Rubio

- Parenteral nutrition-associated cholestasis in neonates: multivariate analysis of the potential protective effect of taurine.
- The role of macronutrients in gastrointestinal blood flow.
- Pediatric short bowel syndrome: redefining predictors of success.
- Nutritional aspects of manganese homeostasis.
- Bio-ecological control of acute pancreatitis: the role of enteral nutrition, pro and synbiotics
